REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF NATIONAL PETROLEUM SERVICES COMPANY K.S.C.P.

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of National Petroleum Services Company K.S.C.P. (the "Parent Company") and subsidiaries (collectively, the "Group") as at 31 March 2022, the related interim condensed consolidated statement of profit or loss and other comprehensive income, interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the three-month period then ended. The management of the Parent Company is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34.

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016, as amended, and its executive regulation, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the three-months period ended 31 March 2022 that might have had a material effect on the business of the Parent Company or on its financial position.

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any violations of the provisions of Law No. 7 of 2010, concerning the Capital Markets Authority and its related regulations during the three-month period ended 31 March 2022 that might have had a material effect on the business of the Parent Company or on its financial position.

15 FAIR VALUE MEASUREMENT

Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, based on the lowest input that is significant to the fair value measurement as a whole, as follows:

- ▶ Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For financial instruments that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

15 FAIR VALUE MEASUREMENT

There were no changes in the Group's valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the period.

Set out below that are a summary of financial instruments and non-financial assets measured at fair value on a recurring basis, other than those with carrying amounts that are reasonable approximations of fair values:

	Fair value measurement using		
	<i>Quoted prices in active markets (Level 1) KD</i>	<i>Significant unobservable inputs (Level 3) KD</i>	<i>Total KD</i>
31 March 2022			
Financial assets at fair value through profit or loss	-	1,406,279	1,406,279
31 December 2021 (Audited)			
Financial assets at fair value through profit or loss	-	1,406,279	1,406,279
31 March 2021			
Financial assets at fair value through profit or loss	-	936,073	936,073

There were no transfers between any levels of the fair value hierarchy during the three months ended 31 March 2022.

Reconciliation of Level 3 fair values

The following table shows a reconciliation of all movements in the fair value of items categorised within Level 3 between the beginning and the end of the reporting period:

	<i>31 March 2022 KD</i>	<i>(Audited) 31 December 2021 KD</i>	<i>31 March 2021 KD</i>
As at 1 January	1,406,279	936,073	936,073
Purchases / sales (net)	-	608,000	-
Remeasurement recognised in profit or loss	-	(137,794)	-
	1,406,279	1,406,279	936,073

The valuation techniques and inputs used in this interim condensed consolidated financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2021.

The fair value of financial instruments classified as level 3 are, in certain circumstances, measured using valuation techniques that incorporate assumptions that are not evidenced by the prices from observable current market transactions in the same instrument and are not based on observable market data. The Group employs valuation techniques, depending on the instrument type and available market data. For example, in the absence of active market, an investment's fair value is estimated on the basis of an analysis of the investee's financial position and results, risk profile and other factors. Favourable and unfavourable changes in the value of financial instruments are determined on the basis of changes in the value of the instruments as a result of varying the levels of the unobservable parameters, quantification of which is judgmental. The management assessed that the impact on profit or loss or other comprehensive income would be immaterial if the relevant risk variables used to fair value the financial instruments classified as Level 3 were altered by 5 percent.

For other financial assets and financial liabilities carried at amortised cost, the carrying value is not significantly different from their fair value as most of these assets and liabilities are of short-term maturity or are re-priced immediately based on market movement in profit rates.
